

WHAT'S IN THE BOX

Your basket arrives in three pieces:

- 1 Basket (wheels & latch kit attached)
- 2 Handle – upper section
- 3 Handle – lower section

STEP 1

UNPACK & ASSEMBLE THE HANDLE

Unpack the basket and the two handle sections. Fit the handle sections together, pressing the push button to help guide them in — once the button clicks into place, the handle is secure.

STEP 2

ATTACH THE HANDLE TO THE BASKET

Slide the assembled handle into the back of the basket. It goes in easily — push the button and it will drop right into place.

STEP 3

SEAT THE HANDLE IN THE LATCH

Guide the handle into the latches on the back of the basket. The latches are what hold your handle in place.

STEP 4

STAND MODE & LATCH TIGHT

Lift the basket and rotate it up into stand mode (A), then close the latch firmly so the handle is locked tight (B).

STEP 5

PICK UP BALLS

With the handle attached, guide the basket over loose balls to collect them as you move around the court.

STEP 6

REMOVE THE HANDLE FOR STORAGE

To store or travel, open the latch and lift the handle out (A). Lay the handle across the top of the basket (B) — it packs neatly into your trunk (C).

TRAVELS WITH YOU

With the handle removed and laid across the top, your basket packs neatly into your trunk.

DUAL BASKET SYSTEM

For customers who purchased two baskets

The dual basket system lets you carry a second basket on the same handle for double the capacity. Assemble the first basket using Steps 1–4, then:

Position the second basket on top of the first basket.

Place the second handle on the outside of the baskets and latch it tight.

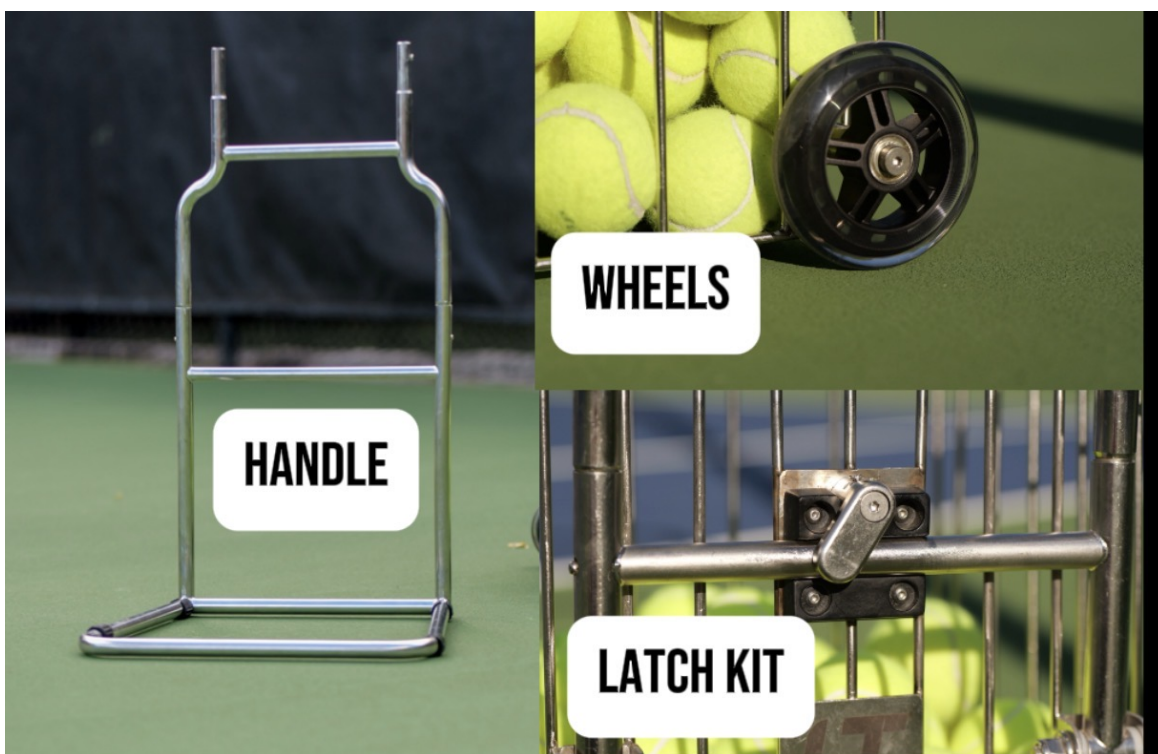

READY TO ROLL!

Load up, tilt the basket back onto its wheels and head to the court.

REPLACEMENT PARTS

Parts of your Lamborg Tennis basket are replaceable, so worn wheels or a bent handle never mean replacing the whole basket.

HANDLE

The two-piece push-button handle.

WHEELS

Smooth-rolling wheels for court and walkway.

LATCH KIT

The latches on the back of the basket that hold the handle in place.

Replacement parts are available for purchase at www.lamborgtennis.com
